### Personal Profile

A well educated analytical person with developed communication and educating skills, seeking a challenging opportunity in an educational, research or training environment.

### Skills and Experience

1. Experience in delivering lessons with preparation, assessment and evaluation.
2. Highly developed communication skills with lecturing, preaching, tutoring, study skills support and creation of resources.
3. Carried out qualitative research for myself, a university department and guided others in the fields of Sociology, Theology, Tourism and Business.
4. Carried out educational and publicity projects using ICT, artistic and photographic skills.

### Recent Project

06/2008 - 10/2008 Archivist and Educator St. Mary's Church Barton DN18 5EZ

A project including archiving and presenting meaningful historical texts on to the World Wide Web, writing a syllabus and eight of 25 intended Theology Course sessions and beginning presentation (these continuing); and an academic standard rewriting of a 1971 low standard dissertation on clergy training (adding a reconstructed bibliography). These activities enhanced the church's self-understanding, significantly improved a clergy training dissertation; and sharpened my teaching skills of planning, preparation and delivery, spreading theological knowledge within the church using adult education principles.

### Relevant Work History

08/2005 - 7/2006 Sociology Teacher Wyke Sixth Form College Hull HU4 5NX

Delivering lessons to sixth form students required an immense amount of planning and prioritising in a high pressure environment to meet timetable requirements. This also included assessing students' work and providing constructive feedback so that students were able to develop and progress. My role also demanded effective and timely communications with colleagues and parents for students' benefit. I used ICT constantly; resources I created were delivered via the Internet through Interactive Whiteboards.

09/2003 - 07/2005 Supply Teacher Teaching Personnel Hull HU1 1TJ

I offered instant flexibility in secondary schools by providing ICT resourced teaching cover across a wide range of subjects to highly diverse sets of students. I gained the ability to be flexible and quickly responded to the challenges of the moment.

10/2003 - 06/2004 Lecturer Hull College Hull HU1 3DG

I taught Key Skills Communications in Literacy to Further Education students. I delivered this within an ICT arrangement that could be accessed online by students at any time in order to maximise student learning opportunities. I liaised with colleagues and worked with students to raise standards in literacy that enabled students to learn their subjects more effectively.

03/2002 - 05/2002 IT Trainer SGS Redwood Services Immingham DN40 1AH

I was commissioned by a local branch of an international company to provide solutions to their data storage needs. I designed and delivered a teaching package to employees which meant that they could more efficiently use and understand how to connect IT software packages to meet the changing needs of the business.

03/2001 - 12/2001 HE Research Assistant Grimsby College Grimsby DN34 5BQ

I provided flexible customer focused drop in service for students. I found this work particularly rewarding as I was responding to students needs across a whole range of ICT, journals and study skills requirements. The ability to work flexibly and access a range of resources (many which I personally developed myself) added value to students' learning experience.

03/1999 to 08/1999 Classifier/ Cataloguer NHS Grimsby DN33 2BA & Scunthorpe DN15 7BH

I successfully carried through a joint education libraries reclassifying project through summary reading in order to enhance the research of all medical staff via the new databases I also produced.

02/1999 to 05/1999 Lecturer Grimsby College Grimsby DN34 5BQ

Via extensive interviewing, commentary, marking special essays and summary lectures, degree students (Tourism and Business) had their research project strategies improved.

09/1998 to 06/1999 Lecturer North Lincs. AES Barton DN18 5PR

Teaching Computer Literacy and Desk Top Publishing I took adult students from basic abilities towards computer fluency and they successfully passed skills based exams.

10/1996 to 01/1997 Tutor University of Hull Hull HU6 7RX

This was a short Sociology course to Psychology students where I built in much discussion to develop general abstract learning and therefore critical thinking skills before their subject specialisation.

### Other Work

08/2000 to 03/2001	Website Designer	Smith & Walker	Barton DN18 5PD
